

EE 522 - PsiQuantum Group - Weekly Report 8

Kush Aggarwal
Thomas Huang
Christopher Sharp

Previous Meeting Items

We are implementing second algorithms and making the corresponding benchmark plots. We planned to finalize poster contents with Mariia this week's meeting.

Future Plan

We will continue implementing some final algorithms with plans for another multiplier and further adders. We will consolidate benchmark plots for next week. Mariia recommended focusing on number of qubits, Toffoli gates, T-gates, and active volume. The plots should compare all algorithms, ours and pre-existing, simultaneously.

Problems

Right now, none. Just trying to get it all done.
